**To whom it may concern re: Tony Caesar**

Tony was introduced to us on recommendation by my daughter's father-in-law for whom Tony had completed major work in the construction of his new, detached, high quality residence.

Tony has now completed numerous tasks for us on several occasions.

This note is a reference recommending Tony to any potential customer.

Our home is a 400 year old barn conversion and all projects require considerable competence in a wide variety of skills.

We are delighted that all work was completed to an exceptionally high standard to 'craftsman' grade whether involving modern, reclaimed or original materials.

We are very demanding customers and Tony exceeded our expectations in all ways including price, availability, reliability, commitment, and especially in quality of work. We have no hesitation in recommending him to others regardless of the scope of the project.

Here are some pictures of one of the projects Tony completed at our home:
